This four year course has all the ingredients to fulfill the needs of a good papermaker. There has been a continual improvement in the course contents, teaching methodologies meet the growing needs of the industry with periodic upgradation of curriculum. The revised syllabus introduced from the AY 2008-09 has added subjects like 'C' LANGUAGE, AUTOCAD, MACHINE DRAWING, PRINTING & PACKAGING, QUALITY MANAGEMENT SYSTEMS, etc. as a part of the academic curriculum, which makes the course one of the best in this category.

The students of the course are guided by well-qualified and dedicated faculty members. As part of their course curriculum the students are sent to paper mills located at different parts of the country for inplant training during the last two years of the course, besides periodic visits to WCPM Ltd. Dandeli and the project work during their final year of study.
